

## Group Contribution Form

The purpose of this form is to provide each group member an opportunity to express their contribution to the assignment and for the marker to determine the contribution made by each group member.

All group members MUST discuss this form, fill this form, sign this form upon agreement and submit it together physically by week 11. The whole team member must attend. This form will be used by the marker to determine each of the group members' final marks for the assignment.

Each group is required to submit one signed of this form together with the assignment.

---

You are asked to assess the percentage (%) contribution of each group member to this assignment. The total percentage should equal to 100% (or almost). If every member of the group contributes equally, the figure entered in the % contribution column should be 20% against each member (in a 5-member group). If your group has 4 members, then the figure would be 25% for each member.

| Member | Name              | Signature   | % Contribution |
|--------|-------------------|---|----------------|
| 1      | Pei Rong NG       |  | 50%            |
| 2      | Eason Bon Shi Jet |  | 50%            |
| 3      |                   |   |                |
| 4      |                   |   |                |
| 5      |                   |   |                |

Individual marks for the assignment will be based on an adjusted group mark where the adjustment is based on any value below an equal share value.
